

# St Andrew's First Aid

## Waverley Company

Does your club have a defibrillator? How confident would you feel if you needed to use it?

No defibrillator? Just doing CPR alone can at least double the chances of survival.

St. Andrew's First Aid Waverley Company are offering defibrillator familiarisation / training / refreshers and CPR training free of charge to those who want it.

With the close season now upon us we can come to you on a Wednesday evening for 2 hours during the months of October to December, with dates also potentially into the new year if required.

Interested? To arrange a date please contact Billy Strang (Lutton Place BC) -
